Dear Ms Davies

**Centre for Environmental Rights' baseline assessment of corporate environmental compliance**

We refer to your letter dated 21 July 2015 addressed to our Chief Executive Officer.

1. The information contained in your summary is correctly reflected. For clarity purposes, Nampak Limited operates in countries in sub-Saharan Africa.
2. We are not aware of any compliance enforcement action by the authorities during the reporting period.

Could you please provide us with the methodology that was used to determine that Nampak was a company with "significant environmental impacts"?

Please do not hesitate to contact me should you have any further queries.

Yours faithfully

**Lynne Kidd**  
Group Manager: Compensation, Benefits and Sustainability
